

WHAT'S ON?

Pharmaceutical Medicine VS Natural Medicine: Get the Facts! *Presented by Venus Bergner, Natural Medicine Consultant and Author*

There is a time and a place for both Natural and Pharmaceutical medicines to play a beneficial role in our lives by alleviating symptoms and reducing risks to overcome disease and maintain health and wellbeing. The question is how do they work and which one is the right choice?

Join us for an informative discussion on common medical conditions and treatment options:

- . Potential Risk versus Benefit
- . Compatibility and Contraindications
- . Treating the Underlying Cause of Disease
- . Effective Patient/Practitioner Communication

Edna's Place 390 Glenhuntly Rd, Elsternwick
